

DUAL HORIZONTAL MULTISTAGE PUMP SETS

RHMS-D SERIES

The REEFE dual horizontal multistage pump sets are designed for a variety of applications including irrigation, cold water supply, pressure boosting, and supplying industrial plant equipment. These pump sets are controlled by digital pressure switches, ensuring precise and reliable operation. Approved under AS4030 for drinking water, they provide a safe and efficient solution for water pumping

APPLICATIONS

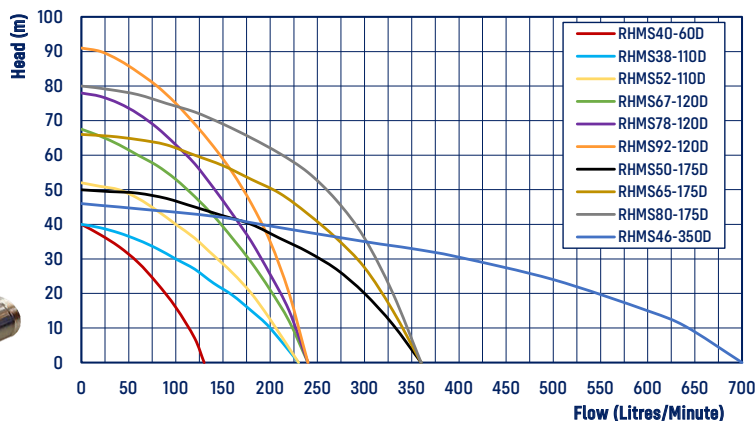

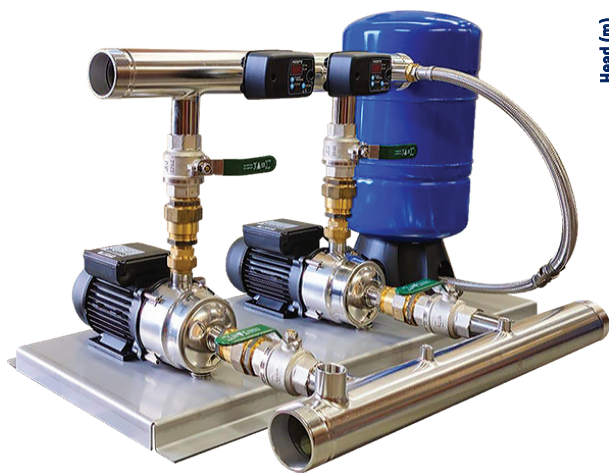

- Irrigation
- Cold Water Supply
- Pressure Boosting
- Industrial Water Supply
- Plant

FEATURES & BENEFITS

- Adjustable EPS Pressure Switches – Maximising Pump Efficiency
- Run Dry Protection – Protects Pumps from Dry Running
- Over and Undercurrent Protection – Protects Pumps from Power Fluctuations
- Pressure Tank Burst Alarm – Prevents Pumps Running with Burst Pressure Tank Bladder to stock fast cycling
- Wet-Tested Before Despatch
- Electrically Tested Before Despatch

CONSTRUCTION

- Premium Reefe Horizontal Multistage pumps
- AS4020 Approved Components
- High Volume Stainless Steel Pump Manifolds
- Barrel Unions Installed for easy servicing.
- REEFE EPS Digital Pressure Switches offer top of the line pump protection and customisability
- Pre-Set at pumps rated head before despatch.

Note: Curves show flow rate with both pump running together
