

DOMESTIC VORTEX SUMP PUMP

DS SERIES

The WaterPro® DS150 Vortex Submersible pump is made of high quality, corrosion resistant materials and is an economical solution for many sump, draining and sillage applications. Lightweight, efficient design with technopolymer vortex impeller and carbon ceramic mechanical seal and oil bath. Covered by a 12 month warranty

APPLICATIONS

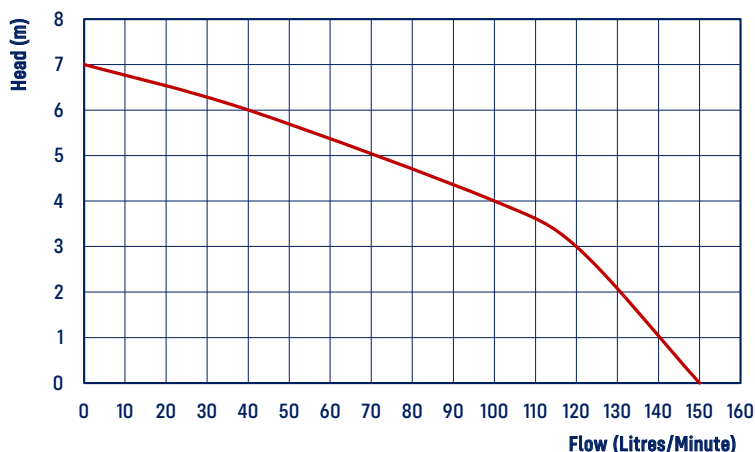

- Grey Water Pits
- Pond & Tank emptying
- Sumps
- Waste water
- Trench emptying

FEATURES & BENEFITS

- Thermal Overload Protection
- Soft Solids handling up to 30mm
- High Performance 150L/min 7.0m max Head
- H05RNF 10m power cable
- Includes multi-stage hoesail
- Automatic operation
- Float Switch for Auto Start/Stop

CONSTRUCTION

- Stainless Steel Shaft
- Corrosion resistant body and base
- Technopolymer Vortex Impeller
- Silicon-Carbide/Graphite Mechanical Seal
- Automatic float switch
